EDITOR’S NOTE

The new draft of the Memorandum and Articles of Association of HKDA Ltd (HKDA M&A) has been drawn up thanks to the effort made by the Task Force on Review of M&A of HKDA since 2017. I hope to take this chance to highlight the core scope of the proposed amendments, which includes voting by postal ballot at general meeting, limiting the tenure of President position to 2 consecutive two-year terms, increasing Councillor positions from 6 to 8 and decreasing the necessary quorum of voting members present in person for a general meeting from 50 to 20 upon implementation of postal ballot. These proposed changes are based on members’ views reflected in the survey conducted in January 2019. The adoption of them is subject to the passage of the special resolution at the Extraordinary General Meeting on 21 May 2019. Members please mark this important date down and cast a vote on that day, either in person or by appointing a proxy with voting instruction given. Let’s join hands to achieve the breakthrough for the development of the Association.

See you there!
